

CATALOGUE OF PRODUCTION

FOR BUSINESS • FOR HOME • FOR MEDICINE

NeoQi® is a young and dynamic company from Estonia with 12 years of experience. Its progressive minded team of experts offers a variety of their own development and conceptual solutions for physical therapy, aesthetic medicine, wellness and spa industry, hardware cosmetology and design.

NeoQi® has developed a unique line of thermo-therapy and water treatment equipment, using novel technical solutions, that allow us to offer the ultimate way to recreation and rejuvenation for contemporary people.

NeoQi® has established high quality and safety standards, as all products undergo vigorous quality control and thorough tests, are made of durable and quality materials manufactured in Europe; equipment has the functionality and compactness, sleek design and unparalleled aesthetic appeal.

The Harmony product family

HARMONY product line is based on a unique cocoon concept. Innovative design of equipment enables to enjoy healing spa-procedures in cocoon-like cosy, safe environment.

Inspiration for the product idea came from nature. The cocoon is the perfect place for harmonious development of a living organism; the environment offers nourishment and protection at the same time.

Thus the HARMONY product line offers an original approach for recreation, relaxation, rehabilitation, relieve fatigue and stress. Procedure in energizing cocoon is two-levelled: you can start your procedure by enjoying hydromassage in an ergonomic bathtub (lower level), followed by thermal procedure laying down on vibrating treatment table (upper level).

The number of functions and treatment possibilities vary among the different models of HARMONY series. This kind of variety makes the products attractive to a wide range of uses ranging from health and beauty institutions, fitness studios to private users at home.

Ergonomic design, ease of setup and regulation of functions, hygiene of the equipment and special attention to details ensure exceptional user comfort while usage and maintenance of equipment. With practically minimal electricity consumption and easy installation these spa systems are valuable additions into any environment.

NeoQi® equipment offers a wide variety of therapeutic treatments that are suitable for different personal needs and are tailored to resolve specific problems encountered by each client. **NeoQi®** devices respond to new demands on the medical market by combining treatments with a total wellness approach. **NeoQi®** methods are inspired by ancient philosophy and life science, helping restore psycho-emotional balance in person.

NeoQi® treatments are aimed at providing all around holistic treatment. This method addresses not only beauty, but also well-being and complete body relaxation. It is inspired by energy treatments that eliminate muscular and vascular tension, balance vital energies (stimulating, soothing, nourishing).

NeoQi® products are top class multi-functional machines, which simultaneously perform a number of combined functions that help to:

- reduce stress by restoring psycho-emotional balance
- stimulate the area of sensory perception, responsible for emotional sphere, improving feeling and mood, easing depression
- prevent and treat certain diseases (normalizing functions of cardiovascular, digestive, respiratory, excretory and endocrine systems)
- regulate metabolism, balance weight
- achieve energy balance between mind, body and soul

Procedures in **NeoQi®** equipment is a way to healing, rejuvenation, immunity boost, longevity and good health in the whole body. The therapies are suitable for all – men and women of all ages and fitness levels.

EU Medical Electrical Equipment Certificate

Features in NeoQi® equipment*

STEAM

Steam

Ensures an effective detox (excretion of waste products, toxicants and ballast substances from the body), increases biochemical processes in tissues, removes impurities and at the same time promotes skin texture, elasticity and tone, increases receptiveness to remineralizing therapies and the effects of active products.

INFRARED

Infrared

More efficient and deeper heating of tissues (subcutaneous fat, muscles, joints, tendons), which causes reduction in volume of the body, treatment of arthrosis/ arthritis/myositis and sprains; trains the cardiovascular system, increases overall body tone, accelerates regeneration and rejuvenation, strengthens immunity system.

VICHY SHOWER

Vichy shower

Produces spray-like heavy rain, providing massage outside of aquatic environment. The drops of water falling on your body, make you alert at first and relax afterwards.

VIBROMASSAGE

Vibrating bed

Accelerates tissue repair, helps eliminate toxins, has a positive effect on the neuromuscular system, improves muscle performance and the redox processes in their tissue, helps relieve stress, tension, pain, elimination of stagnation.

ZONE I

Water (hydro) massage

Provides immediate relaxing effect due to the action of warm water streams with different pressure; increases blood and lymphatic circulation, stimulates metabolic and biochemical processes in organs and tissues.

Therapeutic benefit comes from the relaxing effect of warm water, applied at variable force on the muscles.

BOTTOM MR

Air bubble massage

Ideal for reduction of the increased release of stress hormones, creating an element of psychological and physical comfort; reduces the severity of unpleasant and painful feelings of a different nature, relieves stress on the bones and joints, relieves insomnia.

CHROMOTHERAPY

LED light

Represents the active energy of light, which has an enormous impact on our mind and soul – activates the physiological processes that regulate daily biorhythms, improves immunity, effective in the treatment of fatigue, depression, sleep disorders, neurosis and fatigue.

* Availability of features depends on the model.
Different features may be easily combined together to maximize the effect of the treatment.

Basic treatments in NeoQi® equipment*

- Steam procedure (steam and/or infrared sauna)
- Vichy shower/Hand shower for body
- Hydrotherapy procedure in the bathtub with hydro- and air-bubble massage
- Body scrub
- Body wrapping with usage of cosmetic masks
- Massage with oil
- Facial during body treatment
- Underwater hand-held jet-massage
- Combined comprehensive programs

* Possibility of treatments depends on availability of functions in equipment

neoQi®

Harmony Mediq

The **Harmony Mediq** is premium model in **NeoQi®** product range. Mediq is attractive for rehabilitation centers and health care institutions as it is longer, larger and easily accessible from all sides. **Harmony Mediq** model with its multitude of therapeutic body treatment programs is a universal cocoon suitable for beauty parlors, spa hotels, sports teams, recreational, spa and wellness centers.

- infrared sauna (double infrared lamp)
- Steam sauna
- Aroma therapy

Water		Measures	
water capacity	225 l	length	233 cm
drain connection	50 mm	width	110 cm
water inlet	G 1/2	height	140 cm
required pressure	2-4 bar	weight	160 kg

Harmony Flamingo

Flamingo cocoon got its name because of the clear doors. When both are opened cocoon looks like beautiful Flamingo bird. Updated systems of chromotherapy and infrared sauna, which were created by new technology, allow the customer to feel the heat immediately. Vichy shower is now more powerful and with a possibility to give hand massage during the wet treatment. Multifunctional wellness **Flamingo** cocoon is very simple in use.

- Infrared sauna
- Steam sauna
- Aroma therapy
- Color lights system
- Vichy shower
- Vibrating treatment table
- Music system (MP3)
- Face cooling fan
- Hand shower

Color options

Water		Measures	
water capacity		length	230 cm
drain connection	40 mm	width	95 cm
water inlet	G 1/2	height	155 cm
required pressure	2-4 bar	weight	170 kg

Harmony Dream

Comfortable carrying of procedure, steam impact combining with wrapping and hydrotherapy in a SPA-cocoon increase the effectiveness of classical procedures for correcting the shape and complete the relaxation program. Energizing procedures, which are made in a cocoon, prevent muscle stress, normalize vascular tone, free life energy resources (including normalization of cardiovascular and digestive systems). **Harmony Dream** is specially designed for beauty salons with limited space.

- Infrared sauna
- Steam sauna

NeoQi® cocoon – multifunctional energy complex, which is based on ancient philosophy, centuries of experience and knowledge of health accumulated by scientists. Multipurpose influence is directed not only and not so much for a cosmetic result as for recreation and relaxation of the whole body.

NeoQi® cocoons – the latest achievement in the field of physiotherapy and spa technology. They combine a number of mental and physical, therapeutic and cosmetic effects that allow for a comprehensive psychosomatic correction – to achieve harmony between mental and physical condition of the person. Each procedure using the NeoQi® provides body health, gives a sense of tranquility and supports inner balance.

Multifunctional **NeoQi®** cocoons were developed on the basis of the highest criteria of quality and safety.

Spa-cocoon is used for:

- body detoxification
- relaxation
- relief of stress and chronic fatigue syndrome
- restoration of sleep and biorhythms
- treatment of depression and increased anxiety
- normalization of metabolism and weight
- stimulation of immunity
- cleansing, nutrition and skin rehabilitation
- shape correction and cellulite treatment
- rejuvenation and anti-aging
- treatment of many chronic diseases of musculoskeletal system
- loosening tight muscles and relieving pain
